Welcome...

The T@B teardrop travel trailer was birthed a decade ago, inspired by the classic teardrop camper trailer of the 1940's. This unique camper takes the concept of teardrop trailers to the next level by adding bright colors, dynamic lines, standing room and many creature comforts not available in typical teardrops.

The T@B is designed to be lightweight, easy to tow and even easier to set up and use. By staying significantly below the 2000 lb threshold, the T@B is uniquely positioned in a class all by itself. As such, most family cars, SUV's and lightweight trucks exert little to no effort to tow one.

So pick out your floorplan, your colors, your options and personalize the T@B just for you!

Superior Craftsmanship EVERY DAY

Our products are built using fine, high grade materials and we pay attention to detail on every model we build. One look at the T@B and you'll understand it's not just the retro design and ultra-light weight nature that makes it popular—it's the quality.

Standard Features

High Gloss Exterior with Alloys

Spare Tire Mount

Sturdy Doorstep

Tongue Box

Sink & Stove

Table w/Pole Base

In all things of nature there is something of the marvelous.

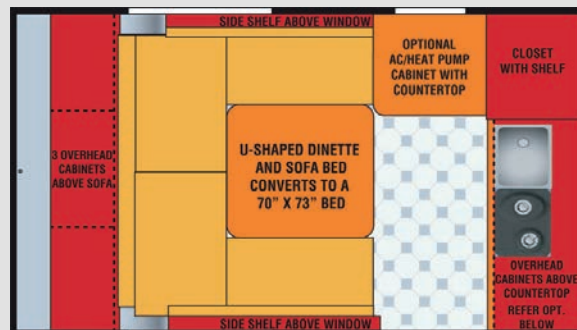

ARISTOTLE

U

U-Floorplan

The traditional floor plan features a U-Shaped Sofa Bed Dinette that converts into a 70"x73" sleeping area and 3 overhead cabinets above the sofa on the rear wall. The front features a sink, 2-burner stove, tall shirt closet and cabinetry.

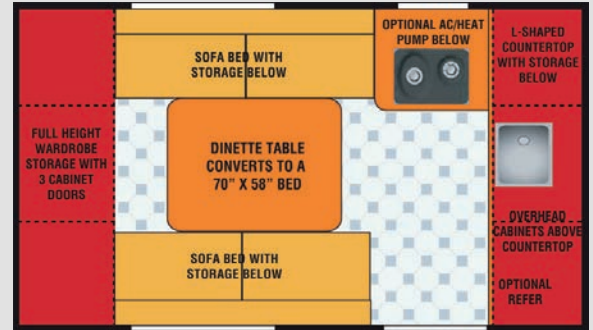

Kitchen and Entrance

Seating Area
pictured with optional Easy-Up indoor/outdoor table

L-Floorplan

This floor plan features the L shaped countertop in the front complete with sink, 2-burner stove and ample cabinetry—both overhead and underneath the counter. More storage is available in the deep ceiling to floor cabinetry on the rear wall.

Kitchen and Entrance

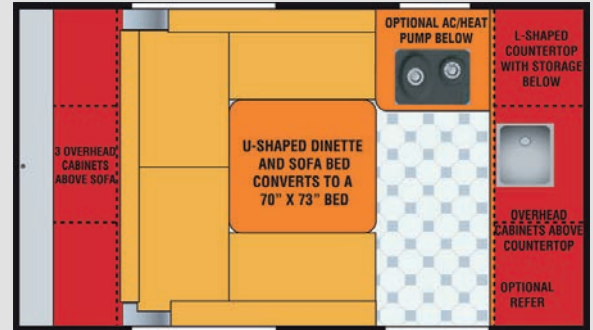

Seating Area
pictured with optional Easy-Up indoor/outdoor table

Q

Q-Floorplan

Get the best of both worlds—a hybrid of the L&U floor plans, the Q offers the same front kitchen area as the L floor plan while enjoying the sofa sleeper dinette and rear cabinetry as the U floor plan.

Kitchen and Entrance

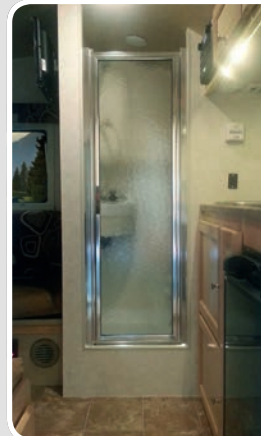

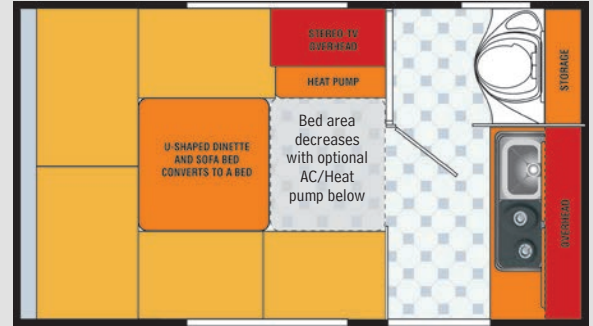

Seating Area
pictured with optional Easy-Up indoor/outdoor table

S

S-Floorplan

Love the T@B but can't pull the trigger without a restroom? Here's your answer. The S Model offers the traditional U-Floorplan with respect to both kitchen and sleeping areas, but you trade out your cabinet and climate control footprint for a wet bath – giving you the ability for showering as well. Should you wish to add an air conditioner, it will not compromise your sleeping area. If you want the CoolCatAC/Heat system, the sleeping area will be reduced by a 24"x24" footprint, leaving your sleeping area as 73"x46" and 59"x24".

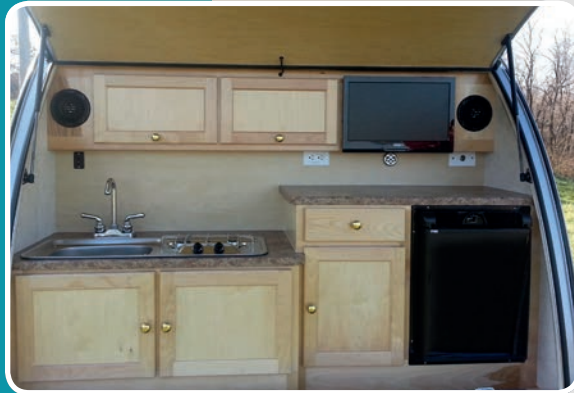

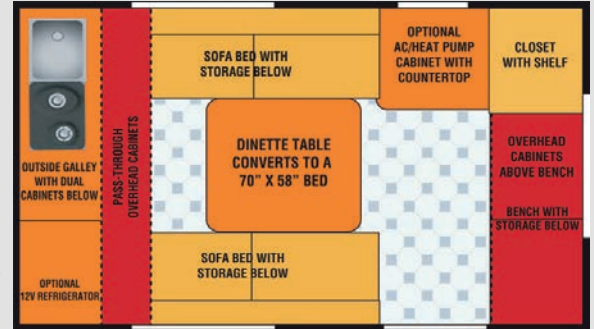

Kitchen and Entrance Seating Area

*All packages of the S-Model include both gray and hot water tank.

Clamshell Floorplan

Maximize the inside area of your T@B while enjoying nature while you cook outdoors! The Clamshell model originated from the traditional teardrop trailers where you set up your kitchen in the rear of your camper. Convert the inside space to seating (and storage) to create more room or a place for your pet. The Clamshell also offers you the ability add a restroom – just like the S-Floor.

Front Bench and Entrance
shows optional front window

Seating Area

The T@B Clamshell model has a slightly different body than other T@B floorplans. As a result, a few options and standard features are different than the other models. Most notably, the colored body trim is only available around the windows, wheel wells and the two front grab handles. This is due to the contour of the rear of the unit. Additionally, a 12 Volt refrigerator is the only fridge available due to a lack of adequate ventilation for LP.

Options & Packages

Quickst@rt Package Features

9" Flip-down TV/DVD/AM/FM

Your T@B. YOUR WAY.

Check out our accessories and optional features to make your T@B unique and beautiful; just the way you like it.

Tent

Increase your versatility by adding living space! This is an ideal extension for guests, children or pets... alternatively, have it simply serve as a screened in porch to your T@B.

Accessories

Cover

Sap, acid rain and a litany of elements of nature can be brutal to your camper—keep your T@B protected with this breathable, UV resistant, durable all-weather cover.

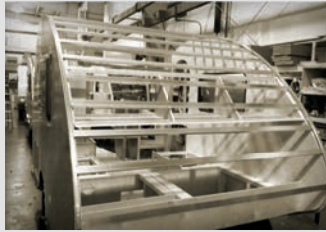

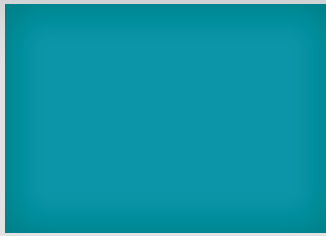

Awning

Keep cool in the shade with this awning! Like the tent, it interfaces with the keder rail on your T@B.

Teardrop Lock

Protect your investment and make everyone aware that you love (and lock down) your T@B.

It is pleasant to have been to a place the way a river went.

HENRY DAVID THOREAU

Quality Construction

In building the T@B, our charge is to construct it with the utmost care, employing only the highest grade materials. From the all-aluminum framing to the beautiful and pure birch interiors to each individual component, we take great pride in the construction process and strive for perfection. We want you to enjoy your trailer in every way possible: functionally, practically and aesthetically.

We strictly adhere to RVIA/1192 guidelines and implement multiple quality control checkpoints during the construction process. When the trailer is completed, every component and system is re-tested to ensure that it is issue-free and ready for you to take home!

Dealer Body

Our dealer body is the heart and soul of our organization. Each one is independently owned and operated—free from any corporate requirements. Purchasing locally has a litany of benefits. From the investigation/education process to purchasing to servicing your trailer to possibly trading it in on a new one, your dealer will forge a personal relationship with you that is both meaningful and long lasting. Other superlatives a local dealer can offer include proximity/ease of access, custom information on ordering and maintenance for the state in which you live and general tips to operate your T@B in the most efficient and effective manner.
